REMOVALS, STORAGE AND INTERNATIONAL SHIPPING

AUTOSOURCE PROGRAMME

When moving with Britannia, you can be sure that we will make every effort to help with your relocation. There are many things to remember when moving to the United States. An important consideration is your own transportation after your arrival. Britannia would like to introduce you to International AutoSource.

AutoSource has developed this programme to provide solutions for Expats moving to the United States without a US credit history but more importantly, their goal is to provide you with the very best price and excellent service.

Through this unique programme, they provide excellent savings and convenience for both long term and short term assignments.

International AutoSource will meet all your personal transportation requirements. They have been serving the American Military, Diplomatic, Foreign Expatriate and American Expatriate communities for over 50 years.

For customer testimonials visit International AutoSource Facebook page.

AUTOSOURCE

AutoSource is designed for candidates that are overseas and moving to the US on assignment for two years and longer. We are the only authorised company in the world offering transferees moving to the USA access to special factory programmes for the purchase, lease and finance of a new vehicle.

Who is this programme for? Foreign Expatriates and repatriating Americans are eligible to use the AutoSource programme.

Foreign Expats moving to the United States have no US credit history. Through our exclusive relationship with our manufacturers, we are able to assist you in obtaining credit even though you have no credit history in the US and no guarantor is required. Americans moving back to the US are also going to find it difficult to get low-cost interest rates.

HOW CAN I SAVE MONEY?

Low Finance rates: You will have access to interest rates that may not be available through the US dealers

Lowest Price Guarantee: Our Manufacturer Direct programmes allow us to guarantee that you will not find the same vehicle at a lower price anywhere in the US.

Low cost Car Insurance: Having no driving history in the US makes it very difficult to obtain low cost insurance. The lack of driving history results in customers being treated as a new driver which means higher insurance rates. Through AutoSource we will assist you in getting car insurance and your overseas driving history will be considered drastically reducing your insurance rates.

ReadyDRIVE

ReadyDrive is a unique programme offering incredible savings and convenience for anyone requiring a rental vehicle for 30 days and more in the US by providing a low-cost, full-service rental programme.

Who is this programme for? Anyone who requires a business rental can take advantage of the ReadyDrive programme. As long as you need a rental for 30 days or longer in the US, you are eligible for the ReadyDrive programme.

How can I save money with ReadyDrive? You can save up to 50% over the best corporate rates available.

How much more to add Insurance? Insurance is free with ReadyDrive. Our rates include insurance coverage for your protection. In addition, there is a no deductible like most corporate rental programmes.

Can I share my rental with my spouse? ReadyDrive is designed to give you the most flexibility. With ReadyDrive your wife or husband can drive the rental vehicle. Most corporate rental programmes restrict or charge extra for additional drivers.

What about peak season prices? ReadyDrive's price is based on a Flat Rate Structure. Our Flat Rate Structure means no price hikes during peak seasons. You pay the same price anytime, anywhere in the USA. Manage your budgets more effectively while saving money.

Quality Vehicles: ReadyDrive's relationship with leading rental car companies allows us to feature vehicles that are less than 1 year old with low-mileage.
